

The Northeastern University Marine Science Center presents:

Evolution in Changing Seas Careers Workshop for Girls

High School Girls! Explore your interest in the ocean, science, and math, and meet scientists, educators, and new friends by attending this FREE two-day workshop during April school vacation week 2019.

WHO: Girls in grades 10-12

WHAT: In this two-day workshop girls will learn about the tools used to study the genomes of living things, and tips for a successful career in marine science.

WHEN: April 16 & 17, 2019

WHERE: Northeastern University Marine Science Center, Nahant.
Daily shuttle is available from Ruggles, Wonderland and Lynn/Central Square MTBA stations.

Thanks to funding from the National Science Foundation, this workshop is free of charge. A refundable deposit is necessary to secure a spot. Applications are accepted on a rolling basis and preference is given to girls from economically disadvantaged families.
